Business Portfolio

01

Distribution of Metal Resources

GMP Corp. serves as a hub in the supply chain for customers by discovering various recycled materials based on domestic/global networking.

02

Toll Processing

GMP Corp. processes wastes into semi-finished products with rotary kilns, drying furnaces, crushers, shredders, and screening facilities.

03

Waste Recycling

GMP Corp. purchases process waste containing valuable metals through legal procedures, processes them through its own facilities into recycled semi-finished products, and then sells them to customers at home and abroad.

04

Component Analysis of Metals

GMP Corp. operates its own analysis laboratory and provides customers with more accurate analysis values through ICP-MS equipment.

Used resources-are no longer wastes They are important raw materials-**for creating new added value.**

Continuing to discover the added value of used resources is not an option for companies, but a necessity.-GMP Corp. is a partner that can provide added value to your company.

Business status

Major Facilities Owned

Equipment-(Machinery)	Quantity	Mechanical Type
Shredder/Crusher	Four	Jaw Crusher Ball Mil, Hammer Mil Roll Mill
Screening machine	Two	Vibrating type x 2
Drying Facility	One	Burner Type Kiln
Roasting Facility	One	Tilting & Rotating Roaster
Electric Furnace	Three	high-frequency induction furnace
Dust Collector	Four	Filter dust collecting Type
Scrubber	Two	pH, Gas Processing

Handling Items

01

Nonferrous Metal Material

Nickel, Copper, Molybdenum, Vanadium, Tin, Zinc, ETC

02

Precious Metal Material

Gold, Silver, Platinum, Palladium, Ruthenium, ETC

03

Li-ion battery scrap/waste materials

-Black Mass, Black powder, NCM waste, LCO waste, ETC

04

All types of Spent Catalysts

nonferrous metal bearing catalysts, PGM catalysts, ETC

We provide new value through recycling and ensure responsibility for the environment and future generations.

GMP Corp. uses cutting-edge facilities and specialized technology to recover target resources from waste resources, returns the value to customers, and further shares it with future generations.

Waste treatment License and capacity allowed

General waste

허가 품목	처리 용량
폐수처리오니	12톤/일 3,600톤/년
그 밖의 공정오니	12톤/일 3,600톤/년
폐합성수지류	4톤/일 1,200톤/년
비철금속제련공정광재	5톤/일 1,500톤/년
그 밖의 광재류	5톤/일 1,500톤/년
그 밖의 분진	4톤/일 1,200톤/년
금속성 폐촉매	10톤/일 3,000톤/년
그 밖의 폐촉매	4톤/일 1,200톤/년
그 밖의 폐전기전자제품류	8톤/일 2,400톤/년

Comprehensive/Specified waste

허가 품목	처리 용량
그 밖의 공정오니	4톤/일 1,200톤/년
폐수처리오니	6톤/일 1,800톤/년
금속성폐촉매	5톤/일 1,500톤/년
폐유성페인트	3톤/일 900톤/년
그 밖의 폐유독물질	5톤/일 1,500톤/년
